PLACENTA, Volume 6 (1985)

Index

Abortion, subclinical, and infertility, 176–183
Abramovici, A. *See* Schoenfeld
Abu-Hasan, N. S. & Sutcliffe, R. G., 391–404
N-Acetyl-β-D-hexosaminidases, placental, 239–248
  chorionic villi and, 243
Adenine nucleotides—
  and energy supply, 199–216
  and mitochondrial respiration, placental, 187–198
ADPase, 49
Ahmed, A. G. *See* Klopper
Ajika, K. *See* Dobashi
Alkaline phosphatase, placental, 391–404
Allantoic sac, in monkey placenta, 423–426
Allen, W. R. *See* Whyte
Althabe, O. & Labarrere, C., 369–373
Althabe, O., Labarrere, C. & Telenta, M., 265–276
Altitude, and pregnancy, 249–258
Amino acids, 497–504
Amniochorion, 133–138
Amoroso, E. C. *See* Bone
Amyloid P component, 551–554
Andersson, K.-E. *See* Maigaard
Angiotensin I converting enzyme (ACE), 543–549
Antigens, trophoblastic, human placenta, 127–140
Antipyrine, 497–504
Aplin, J. D. & Campbell, S., 469–480
Arai, K. *See* Dobashi
Arnaud, P. *See* Johnson
Aryl hydrocarbon hydroxylase, 297–310
ATP, 191–195, 199, 200, 211–213

Barradas, M. A. *See* Jeremy
Baskerville, J. C. *See* Las Heras
Beaver, 311–321
Benirschke, K. *See* Miller
Blanton, T. E. *See* Wong
Blood flow, placenta, 141, 142, 145–148
Boime, I. *See* Hoshina
Bolton, A. E., Dawkins, K. P., Stoker, R. J., Rubenstein, E., Obiekwe, B. C. & Chard, T., 1–4
Bone, Q., Pulsford, A. L. & Amoroso, E. C., 53–63
Book reviews, 92, 185–186, 277–280, 561–562
Boothby, M. *See* Hoshina
Branchaud, C. L. *See* Lai
Braunstein, G. D. *See* Winikoff
Brosens, I. *See* Pijnenborg
Browne, M. J. *See* Eaton
Bulmer, J. N. & Johnson, P. M., 127–140

Calcium, extracellular binding, 259–264
Camel, H. M. *See* Hoshina
Campbell, S. *See* Aplin
Carson, S. D. & Ramsey, C. A., 5–12
Challier, J. C., Nandakumaran, M. & Mondon, F., 497–504
Chard, T. *See* Bolton
Chawner, L. *See* Illsley
Cheng, H. M. & Johnson, P. M., 229–238
Choriocarcinoma, 169–170
Chorion laeve, 40–41
  cytotrophoblast, 469–480
Cigarette smoking, 329–340
Coade, S. B. *See* Harkness *and also* Illsley
Coagulation factor III. *See* Tissue factor
Coid, C. R., O'Sullivan, A. M. & Rossiter, C. E., 65–68
Contractor, S. F. *See* Eaton
Craft, I. L. *See* Jeremy
Creatinine, 341–346
Cummings, A. J. *See* Kaelin
Cysteine proteinase inhibitors, 455–463
Cytotrophoblast of chorion laeve, 469–480

Dandona, P. *See* Jeremy
Daria Haust, M. *See* Las Heras
Dawkins, K. P. *See* Bolton
Diabetes mellitus, class C, and placenta, 69–82
  characteristics, 71, 75, 76
  villi, 73, 74
Digoxin, 435–444
Distamycin A/4′,6-diamidino-2-phenyl-indole staining, 363–367
DNA—
  placental, 17, 18, 107–108, 111–115
  and trophoblast disease, 116–170
Dobashi, K., Ajika, K., Kambegawa, A. & Arai, K., 445–454
Dobbing, J. *See* Sands
Douglas, G. C., Judah, J. D., Ellis, R. B., King, B. F. & Mackenzie, A., 239–247
Dual perfusion, 23–32
Duffy, S. *See* Harkness

Early pregnancy factor, 465–468
Eaton, B. M., Browne, M. J. & Contractor, S. F., 341–346
Ellis, R. B. *See* Douglas
Elston, C. W. *See* Womack
Endometrial gland, epithelial cells, 136–138
Endometrium, equine, 537–542
Energy—
  and adenine nucleotides, 199–216
  expenditure, fetus, 152–153
  and ischaemia, 205
Epidermal growth factor, 519–526
Epithelia, endometrium, maternal, 136–138
Epitheliochorial placentation, trophoblast invasion, 157–158
  and haemochorial placentation, 158
7-Ethoxycoumarin *O*-de-ethylase, 297–310, 481–495
Eutherian chorioallantoic placenta, 156–157
Everson, R. B. *See* Wong
Extracellular matrix, of cytotrophoblast, chorion laeve, 469–480

Feller, A. C., Schneider, H., Schmidt, D. & Parwaresch, M. R., 405–415
Fetal trophoblast cells, ovine, 117–126
Fetus, human, and Niemann–Pick disease type A, 33–44
Fischer, T. V., 311–321
Fonseca, M. F. F. *See* Garcia
Forman, A. *See* Maigaard
Fox, H. *See* Illsley

Freinkel, N. *See* Metzger
Fryer, P. R. *See* Kaelin

Galbraith, R. M. *See* Johnson
Garcia, A. G. P., Marques, R. L. S., Lobato, Y. Y., Fonseca, M. E. F. & Wigg, M. D., 281–295
Genetics, of trophoblastic disease, 166–170
Gestation—
  age, and placental weight, 15
  and prostaglandins, 117–126
  and Schwangerschafts protein 1, 182
  in Suina, 83–85
Glucagon, 347–354
Glucose, 347–354
β_1-Glycoprotein, pregnancy-specific, 417–422, 427–433
Glycosphingolipids, syncytiotrophoblast, 229–238
Glycosylation, of equine endometrium, 537–542
Goodyer, C. G. *See* Lai
Grindley, H. *See* Kaelin
Growth-retarded infants, intrauterine, 369–373
Guinea pig, fetus, 203–204
Guyda, H. J. *See* Lai

Haas, J. D. *See* Jackson
Haemochorial placentation, 158–160
  and endotheliochorial, 158
  establishment, 158–159
  maternal response, 159–160
Hammond, K. D. *See* Laminski
Halotypes—
  choriocarcinomas, 169–170
  in molar tissue, 168–169
Harding, P. G. R. *See* Las Heras
Harkness, R. A., Coade, S. B., Simmonds, R. J. & Duffy, S., 199–216
  See also Illsley
hCG. *See* Human chorionic gonadotrophin
Hexoses, placental transport, 497–504
Hippopotamus, placenta, 88–90
Hormones, peptide, 163–172
Hoshina, M., Boothby, M., Hussa, R., Pattillo, R., Camel, H. M. & Boime, I., 163–172
hPL. *See* Placental lactogen
Human chorionic gonadotrophin, 163–172, 417–422
  and Schwangerschafts protein 1, 174–175
Human placental trophoblast, 323–328
Hunnicutt, C. K. *See* Wong
Hussa, R. *See* Hoshina
Hydatidiform mole—
  clinical details of, 97–100
  epidemiology of, 93–106
  genetics of, 168
  high-risk countries, 93
  histology of, 97–100
  low-risk countries, 94
  Nottingham, 94–96, 102
Hypertension, and placental arteries, 217–228
Hypoxanthine, 207–209
Hytten, F. E., 185–186

Illsley, N. P., Coade, S. B. & Harkness, R. A., 187–197
Illsley, N. P., Fox, H., Van der Veen, F., Chawner, L. & Penfold, P., 23–43
Immunochemistry, and β_1-glycoprotein, 427–433
IMP, 204, 206
Infection, in pregnancy, mice, 65–68
Infertility, and subclinical abortion, 176–183
Insulin, 347–354, 505–517

Jackson, M. R., Joy, C. F., Mayhew, T. M. & Haas, J. D., 249–258
James, J. *See* Van der Velde
Jean-Jacques, G. *See* Teasdale
Jeremy, J. Y., Barradas, M. A., Craft, I. L., Mikhailidis, D. P. & Dandona, P., 45–52
Johnson, P. M., Arnaud, P., Werner, P. & Galbraith, R. M., 323–328

Maigaard, S., Forman, A. & Andersson, K.-E., 435–443
Mare, endometrium, 537–542
Marques, R. L. S. *See* Garcia
Marsupials, 155–156
Mayhew, T. M. *See* Jackson
Membrane proteins, microvilli, 5–12
Menstrual cycle, and Schwangerschafts protein 1, 175
Metzger, B. E., Rodeck, C., Freinkel, N., Price, J. & Young, M., 347–354
Microvilli—
  alkaline phosphatase, 391–404
  diabetes, 73–74
  membrane proteins, 5–12, 391–404
  and Niemann–Pick disease, 39
  placental, 5–12
  Suina, 86–90
  surface enlargement factor, 375–381
Mikhailidis, D. P. *see* Jeremy
Miller, P. W. & Benirschke, K., 423–426
Mitochondria, respiration, placental, 187–198
Mixed-function oxidase, 297–298, 308–309
Mizutani, S. *See* Taira
Moll, W., 141–154
Mondon, F. *See* Challier
Monkey, spider, placenta, 423–426
Monoclonal antibodies, 127–140
Myofibroblast, 405–415

Nandakumaran, M. *See* Challier
Nanney, L. B. *See* Magid
Narita, O. *See* Taira
Nematosomes, 355–361
Niemann–Pick disease type A, 33–44
  chorion laeve of, 40, 41
  placental villus of, 39, 40
  phospholipids, 38

sphingomyelinase in, placental, 38
umbilical cord, 42

Ober, W. B., 278–279
Obiekwe, B. C. *See* Bolton
Ockleford, C. D. *See* Jones
Oestradiol receptors, 383–389
O'Sullivan, A. M. *See* Coid
Ovadia, J. *See* Schoenfeld
6-Oxo-$PGF_{1\alpha}$, 45–49
Oxygen saturation, arterial, fetal, 152

Parwaresch, M. R. *See* Feller
Pasanen, M., Raunio, H. & Pelkonen, O., 527–537
Pattillo, R. *See* Hoshina
Peccary, placenta, 86, 87, 90
Peereboom-Stegeman, J. H. J. C. *See* Van der Velde
Pelkonen, O. *See* Pasanen
Penfold, P. *See* Illsley
Perfusion—
efficiency, measure of, 341–346
placental, 23–31
Perinatal mortality, and umbilical artery Wharton's jelly, 555–559
Persistent trophoblastic disease, 100–102
PGI_2. *See* Prostacyclin, placental
Phospholipids, placental, in Niemann–Pick disease, 38
